

5 MORE REASONS to wear a hard hat on the job ...

1 If someone drops a hammer on your head, it won't hurt as much.

2 You'll look cool and feel professional.

3 If you bang your head on something sharp, you won't get blood all over your work clothes.

4 No one will point at you and say, "Look at that jerk without a hard hat on!"

5 Your sweetheart will still be able to run his/her fingers through your hair without tearing out some stitches and getting nauseated.
